What do you think about the instant messaging service?

Would like to know I'm talking to. Would be nice to have some confirmation on user identity.

What do you think about managing blogs?

Easy to add blogs. However would like to see a preview of my content before posting.

What do you think about manage portfolio?

Same as managing blogs.

What do you think about managing users?

Easy to use.

Do you understand validation errors when entering incorrect data?

◉ Yes

○ No

What do you think of the registration process?

No confirmation E-mail?

What do you think about the instant messaging service?

Dates are a bit too long to read.

What do you think about managing blogs?

Would like more feedback validation after submitting post.

What do you think about manage portfolio?

Easy to use.

What do you think about managing users?

Manages them fine.

Do you understand validation errors when entering incorrect data?

◉ Yes

○ No

What do you think of the registration process?

Needs confirmation for E-mail otherwise people can steal the identity of someone.
